# SEAL RECORD POLICY

Keep IN and OUT seal records on all loads.

Make sure the Bill of Lading has the seal number on it and that it matches the seal that is on the trailer. Keep a supply of seal record forms and seals in your truck at all times. If a receiver will not sign the seal report, get the name of the person and write it on the seal report along with "refused to sign" then send in a Macro 5 notifying the OS&D department.

The only exception to this is on meat loads... you must call them at the 800 number printed on the bill. Make sure and get the name of the person you talk to and a temporary claim number. This applies 24-7 as meat companies have 24 /7 customer service. Then send in a macro 5 letting us know. ALL OS&D issues must be reported from the receiver at the time of delivery. Do not send in your empty call until the OS&D issue is resolved and your trailer is empty.

Feel free to contact any one of us in the claims department with any questions. We will be happy to help you with any issue you may have.

Thanks,

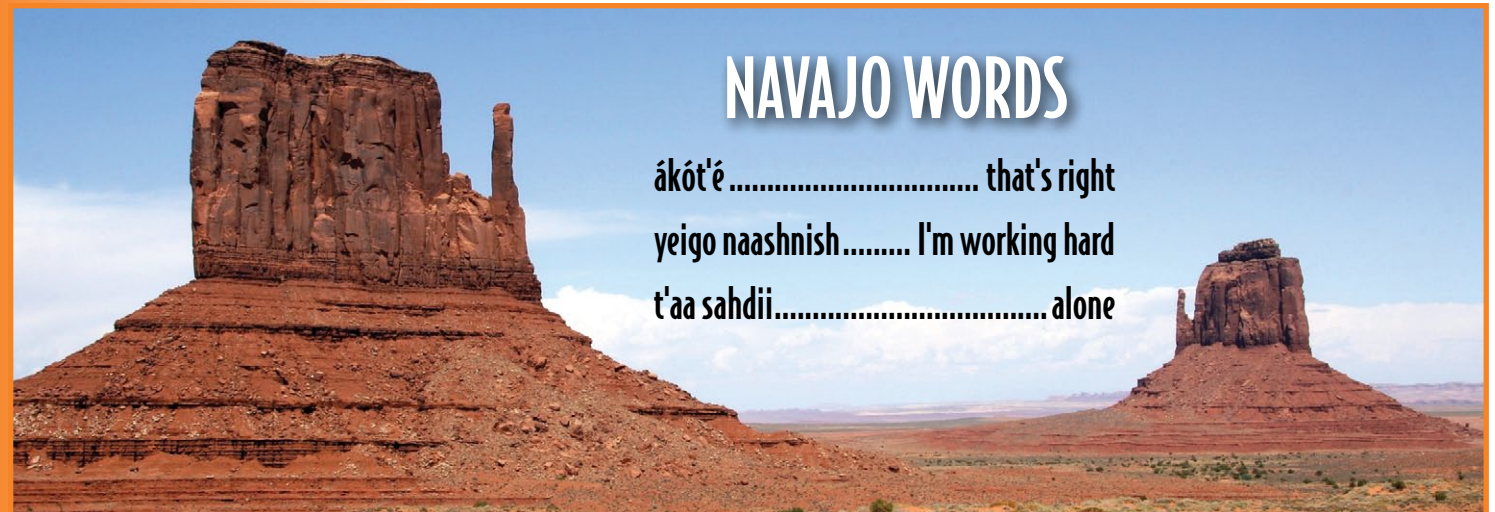

The Claims Department
